Every angle is covered in Marwayne, from outstanding educational and recreational facilities to friendly businesses and neighbours, which makes small town living the place you want to be. Our vision is that our successful and prosperous community continues building on our "Angles for Success" to further increase the population and marketing to attract new businesses. With our many opportunities and amenities, we invite you to visit our community and personally experience Marwayne's angles.

We are a vibrant community located on the Cold Lake -Lloydminster corridor just 10 minutes north of the Yellowhead TransCanada Highway, at the intersection of Highway 45 and Secondary Highway 897. Highway 45 connects Marwayne with the Saskatchewan border to the east. Highway 897 connects us north to Whitney Lake Provincial Parks through to the City of Cold Lake. It is 33 km northwest of Lloydminster and 240 km east of Edmonton.

We are active in pursuing Economic Development for our community, from strengthening our existing businesses and attracting new ones, to enhancing our community lifestyle. Check out our website, a joint venture between the Chamber and the Village, which gives details about our community.

Mission Statement:

"To promote growth, opportunity and economic development to benefit our community."
