The Town of Vermilion is situated on the edge of the picturesque Vermilion River Valley at the crossroads of the Yellowhead Highway (#16) and Hwy #41 and is a must-stop for travelers!

Agriculture is the primary regional industry including cultivation of grains, oilseeds, beef cattle, hogs and dairy products. Vermilion is a strong and effective service centre for the agricultural industry in the region.

Heavy crude oil exploration development has found Vermilion to be strategically located. The oil fields in the Lloydminster, Wainwright Cold Lake and Elk Point areas are easily accessible from Vermilion along Highway #16 or Highway #41.

The moderate land prices and new residential developments encourage easy and affordable relocation or start up for businesses of any size.

Discover the town's fascinating history and architecture by visiting the Heritage Museum and taking a walking tour through the downtown area. Stroll past tree-lined streets and lovingly restored buildings, each with its own unique history, now housing an array of shops and services. Visit Lakeland College and their Emergency Training Centre – one of the country's premiere fire training schools.

Enjoy the serene and beautiful natural surroundings that are ideal for golfing, bird-watching, picnicing, hiking and fishing. In winter, cross country ski on the 15 kilometer long track of groomed trails that Canadian Olympian and Vermilion local, Beckie Scott, trained on.

Participate in many entertaining events that are always in season, including professional rodeos, chuck wagon races, a music festival and agricultural fair just to name a few.

The Vermilion Regional Centre is a 600 guest capacity ballroom, fully equipped kitchen for professional caterers, an indoor playground and several multipurpose meeting rooms, it's the perfect place to host your next function.

Vermilion is a worth exploring!
